

DENON DSW-1H WIRELESS SUBWOOFER FOR DENON DHT-S716H SOUND BAR

EASILY ADD DEEP, POWERFUL BASS

The Denon DSW-1H wireless subwoofer connects via Wi-Fi to the Denon DHT-S716H sound bar to add deep, powerful bass you can feel and hear. Dual custom 5.25” drivers are fed by sophisticated high-power Class-D amplification while proprietary DSP algorithms give you optimized low frequency response across the entire dynamic range. Place it anywhere in the room, horizontally or vertically, then simply plug-in to wall power and play. With quick setup, improving your entertainment experience with clear, thunderous bass has never been easier.

HIGHLIGHTS

YOUR BENEFITS

Deep bass subwoofer	Add powerful bass to the Denon DHT-S716H sound bar for a truly complete immersive experience
Custom drivers for better sound	Dual custom 5.25” drivers and sophisticated high-power Class-D amplification work together to deliver a rich, dynamic bass
